A poor fellow having with difficulty procured an audience of the du Newcastle, told his grace he came to solicit him for something towards a support, and as they were the same family, both being descended from Adam, hoped he should be refused. "Surely not," said duke, "surely not—there is a tor you, and if all the rest relations will give you as much be a richer man than I am."

Cannot Eliminate Love
A periodical devoted to literature pleads for plays based on action other than love. The author in producing such plays is of opinion that the play must have a hero, and a hero the playwright, as a rule, almost inevitably views expressed two thousand years ago by a scribe on the walls of Pompeii: "He who loved a woman is not a

Reasoning by Deduction.
A young English lady who was going out to New Zealand to get married went to a dressmaker for her trousseau. The dressmaker suggested a warm material. The young lady said "Oh, no, seeing that the climate of New Zealand is a beautifully mild one." The dressmaker replied: "I assure you, madam, you are mistaken, for that is where the frozen snow comes from."

POST.

Joe Cleveland spent Friday night at W. T. Townsend's.

Mrs. Maister is very low with pneumonia.

W. T. Townsend was in Highland Friday on business this week.

Lecher Harold was in Marlinton last week visiting friends. He will soon leave for streamer, where he will look out a location.

Miss Clara Gibson, who has been visiting friends and relatives here, returned to her home, at Monterey, Friday.

Uncle Abraham Sharp is quite indisposed at this writing. Dr. Hise was called Sunday evening.

Mrs. Anna Curry is recuperating from a severe attack of diphtheria.

We understand that H. F. Arbogast and H. H. Grimes have sold their farms to Wm. H. H. and will vacate soon.

Rev. E. R. Craddock, evangelist, will begin a series of meetings at this place.

We note in the county court proceedings of last week that the bridge across Douthards creek was condemned and a temporary ford order opened. We take it that they will have this temporary ford until a republican court is elected which will build them a bridge. How about it folks on Douthards creek? The literal meaning of such action of the court is "Progress with Economy".

The little child of Mr. and Mrs. Ira Bossard, of New Hope, is very low with pneumonia at this writing.

W. G. Rull, of Green Hill, Highland county, Va., has bought W. T. Townsend's farm. Mr. Townsend contemplates moving to Marlinton. There seems to be quite a bit doing in our section in the way of land sales, which seems to indicate a republican victory in November.

...the above subject is well up her side. F. A. Arbogast of Townsend.

Master Harold George was visiting his grandparents at Hotel Watoga last week.

Mrs. Anna Maister is spending the week with Mrs. Clara Phillips at home. Mrs. Phillips had one outbreak of pneumonia but is feeling very healthy. We are sure glad to learn that she is getting along nicely.

Sam Erwin still knows how to drink beer. He sold Tom Vandevander a fine bottle house Saturday.

David Fisher is low although he is rather better for a case of nervousness some years ago.

There is quite a bit of sickness in our community.

Edgar Arbogast, little son of Bud Arbogast, has been quite sick but is now better.

Sylvanus Spivey was called to Pittsburgh, Pa., to see his mother, who is seriously ill.

We are glad to see W. F. Wilcox able to be out again.

Joe Berris, of Hightown, Va., was visiting his parents at his place Saturday and Sunday.

Mrs. Wm. Vandevander was the guest of Mrs. P. W. Arbogast Sunday.

News is scarce this owing to such bad weather. With best wishes for the News we take our exit.

BUCKEYE.

D. A. McNeill is building a new house.

George Jackson's little girl is very sick at this writing. Dr. Howard attending physician.

Airship Trolley Car.

It is quite a new idea to drive a
suspended trolley car by means of a
propeller (like an airship). The car,
with which experiments are being
made at Hayden, Cal., runs on a short
length of overhead track of about a
quarter of a mile, and is driven by a
twenty-six horsepower gas engine.
The car is made of steel and alumi-
num, and is intended to have a light
flexible covering, with celluloid win-
dows. It is 16 feet long, and can carry
30 passengers. It has worked quite
satisfactorily, though the track is too
short to test its speed. The propeller
has two blades, like huge fans, made
of sheet metal or strips of steel tubing.
Another propeller will be fixed to
the front, which will double the motive
power and prevent stoppage in case
of a breakdown to the rear propeller.
